

Youth Sunday School Classes

We continue to use the curriculum called “Live B.I.G.” (Belief In God) in which children learn the basics of our Christian faith and discuss ways to live out our faith in daily life. This is an exciting curriculum which uses DVD segments each week portraying children and youth discussing their faith. The DVDs also include music and virtual “field trips” to other churches around the world.

The Sunday School students are participating in One Great Hour of Sharing and are selecting the mission on which to designate the 2008 collection.
